# STUDY STARTS NOW S5/S6

# Jamie Farquhar

*Headteacher*

Welcome to the Stranraer Academy – Study Starts Now Program

Success in SQA exams is an important part of students' overall achievement at Stranraer Academy. This success requires teamwork and hard work over many years and especially in S4,5 and 6.

It is also true that intense, focussed revision – and completion of coursework – in the last few weeks before exams can improve grades. To support pupils in this effort, I am delighted to offer our Study Starts Now program.

Each subject has been split into 8 sections, one for each week before the exams, to guide revision and provide a framework to ensure every pupil knows exactly what they need to know and how well they know it. In addition to classwork, teacher support – including after-school study and the various online resources such as Achieve, Stranraer Academy pupils should be exceptionally well prepared for their exams.

I would wish pupils good luck in their exams, but luck has nothing to do with it: Work hard, don't give up and the success will follow.

...but also, good luck!

Mr Farquhar

WEEK	STUDY FOCUS
1 26/2-3/3	<p>Biosphere (paper 1) and OS map questions (paper 2) (worth 20 marks in the exam)</p> <ul style="list-style-type: none"> <li>• Extra Geography focus on soil characteristics and on the drawing/ annotating of soil profiles for Brown Earth, Podsol and Gley soils.</li> <li>• Homework questions regarding any of the three soils and an OS map question to practice pupil's geographical skills of using an OS map and different sources will be given out.</li> <li>• Put additional resources and examples of past paper questions regarding Biosphere onto the Higher Geography TEAMS page (see file section- Biosphere revision folder)</li> </ul>
2 4/3-10/3	<p>Rural land degradation – Paper 1</p> <ul style="list-style-type: none"> <li>• Extra Geography focus on the causes, impacts, management solutions and their effectiveness at reducing rural land degradation in the Sahel area of Africa.</li> <li>• Homework questions focusing on any of the three areas of land degradation outlined above.</li> <li>• Put additional resources and examples of past paper questions regarding Rural land degradation onto the Higher Geography TEAMS page (see file section- Land degradation revision folder)</li> </ul>
3 11/3-17/3	<p>Hydrosphere – Paper 1</p> <ul style="list-style-type: none"> <li>• Extra Geography focusing on the hydrological cycle and hydrographs.</li> <li>• Homework questions regarding the hydrological cycle and hydrographs. Also give one land-form question selecting from V-shaped valleys, Waterfalls, Meanders or ox-bow lakes</li> <li>• Put additional resources and examples of past paper questions regarding Hydrosphere onto the Higher Geography TEAMS page (see file section- Hydrosphere revision folder)</li> </ul>
4 18/3-24/3	<p>Population – Paper 1</p> <ul style="list-style-type: none"> <li>• Extra Geography focusing on how population data is collected and what the issues are of doing this in developing countries. Also go over describing and explaining of population pyramids and how developed countries face issues due to an ageing population, while developing countries face issues of a youthful rapidly growing populations.</li> <li>• Homework questions will focus on the three most regular asked areas of the population topic, as point one above.</li> <li>• Put additional resources and examples of past paper questions regarding the Population topic onto the Higher Geography TEAMS page (see file section- Population revision folder)</li> </ul>
5 25/3-31/3	<p>Atmosphere – Paper 1</p> <ul style="list-style-type: none"> <li>• Extra Geography this week will focus on areas that pupils traditionally struggle with regarding the unit. Focus will therefore be on the atmospheric circulation model and if time allows the movement of the ITCZ over western Africa.</li> <li>• Homework questions will be on the above two areas mentioned above and also one area from the global heat budget, reasons why some areas on Earth are hotter/colder than other or Ocean currents.</li> <li>• Put additional resources and examples of past paper questions regarding Atmosphere onto the Higher Geography TEAMS page (see file section- Atmosphere revision folder)</li> </ul>

<b>6</b>  <b>1/4 -7/4</b>	Climate Change – paper 2 (worth 20 marks in the exam) and OS map questions (paper 2) <ul style="list-style-type: none"> <li>• Extra Geography will focus on the human and physical causes of Climate change. The impacts/effects of Climate Change and the management solutions and their effectiveness.</li> <li>• Homework questions will be given on two aspects of the three areas discussed above. An OS map/ skills questions will also be given.</li> <li>• Put additional resources and examples of past paper questions regarding Climate Change onto the Higher Geography TEAMS page (see file section- Climate Change revision folder)</li> </ul>
<b>7</b>  <b>8/4-14/4</b>	Development and Health – Paper 2 (worth 20 marks in the exam) <ul style="list-style-type: none"> <li>• Extra Geography will focus on development indicators and their limitations. We will also go over Malaria. It's causes, impacts and management solutions/ their effectiveness.</li> <li>• Homework will involve questions regarding development indicators, how they show differences between developed and developing countries in terms of their development levels, Malaria (as outlined above) or PHC schemes and their effectiveness.</li> <li>• Put additional resources and examples of past paper questions regarding the Development and Health topic onto the Higher Geography TEAMS page (see file section- Development and Health revision folder)</li> </ul>
<b>8</b>  <b>15/4-21/4</b>	Lithosphere – Paper 1 Glaciation and Land use conflicts (worth 20 marks in the exam) <ul style="list-style-type: none"> <li>• Extra Geography for the final week before the exam on April 23<sup>rd</sup>, will focus on a couple of glacial eroded landforms, selecting from corries, Arêtes, Pyramidal Peaks, U-shaped valleys, Hanging Valleys and Ribbon Lakes. We will then move onto looking back over glacial depositional landforms, Drumlins, Terminal Moraine and Eskers. If time allows we will quickly go over the main land use conflicts that occur in upland glaciated areas and their management solutions.</li> <li>• The final homework will cover one glacial eroded landform, one glacial depositional landform and one land use conflict question.</li> <li>• Put additional resources and examples of past paper questions regarding lithosphere (glaciation topic) onto the Higher Geography TEAMS page (see file section- Glaciation revision folder)</li> </ul>

## Easter school

Time will be given over to the following which will not be covered in the above sessions: -

### 1. Lithosphere - Coasts

Coastal eroded landforms – wave-cut platforms, headlands & bays, cave, arches, stacks and stumps.

Coastal depositional landforms – sand spits, sand bars and tombolos.

### 2. Urban

Mumbai housing issues e.g. conditions of living in Mumbai Shanty town called Dharavi and what improvements/ managements strategies can be made/ effectiveness of management solutions.

Mumbai traffic congestion causes and the management solutions/ their effectiveness.

### 3. Further practice of the Geographical skills OS map questions

### 4. Areas of the course that pupils would like revisited.

**Paper 1 – 100 marks in total (1 hour 50 minutes) - The number of marks on each topic vary from year to year and range from 8 marks to 18 marks for some topic areas.**

**Paper 2 – 60 marks (1 hour 10 minutes) – For all three topic areas, Climate Change, Development & Health and Geographical OS map skills are always all worth 20 marks**

**Final exam April 23rd 2024**

# Higher - History

As part of your revision for the Britain section of paper 1 you will select 4 of the 5 issues that we have studied in class and prepare essay plans on your chosen 4 issues. Options and detailed guidance for each is on teams. Russia topic is not included in this revision plan as study of this topic is ongoing.

WEEK	STUDY FOCUS
1 26/2-3/3	<p><b><u>Britain revision</u></b></p> <p>Essay skills- Introductions (2 clear points of context, a clear line of argument addressing the question and a list of factors to be covered.)</p> <p>Revision and planning of at least 4 factors for your first chosen issue (1-5). Remember that any factor highlighted can appear as a named factor, so even if it is not one of your chosen factors within an issue you should be prepared to address it even briefly.)</p>
2 4/3-10/3	<p><b><u>Britain revision</u></b></p> <p>Essay skills- conclusions (address the question and come to a clear judgement, give evidence to support your judgment, summary of counter argument for balance, restate further evidence to prove your judgment.)</p> <p>Revision and planning of at least 4 factors for your second chosen issue (1-5). Remember that any factor highlighted can appear as a named factor, so even if it is not one of your chosen factors within an issue you should be prepared to address it even briefly.)</p>
3 11/3-17/3	<p><b><u>Britain revision</u></b></p> <p>Essay skills- Analysis (link your factor to the question showing its importance or lack thereof)</p> <p>Revision and planning of at least 4 factors for your third chosen issue (1-5). Remember that any factor highlighted can appear as a named factor, so even if it is not one of your chosen factors within an issue you should be prepared to address it even briefly.)</p>
4 18/3-24/3	<p><b><u>Britain revision</u></b></p> <p>Essay skills- Evaluation (state the importance of point within a factor, or of one factor over another and give 'new' (unused knowledge) evidence to prove your judgement. This should be linked to your line of argument stated in your intro and should lead to the judgement in your conclusion.)</p> <p>Revision and planning of at least 4 factors for your fourth chosen issue (1-5). Remember that any factor highlighted can appear as a named factor, so even if it is not one of your chosen factors within an issue you should be prepared to address it even briefly.)</p>
